Mockingbird Programme Outcomes

CARER RETENTION

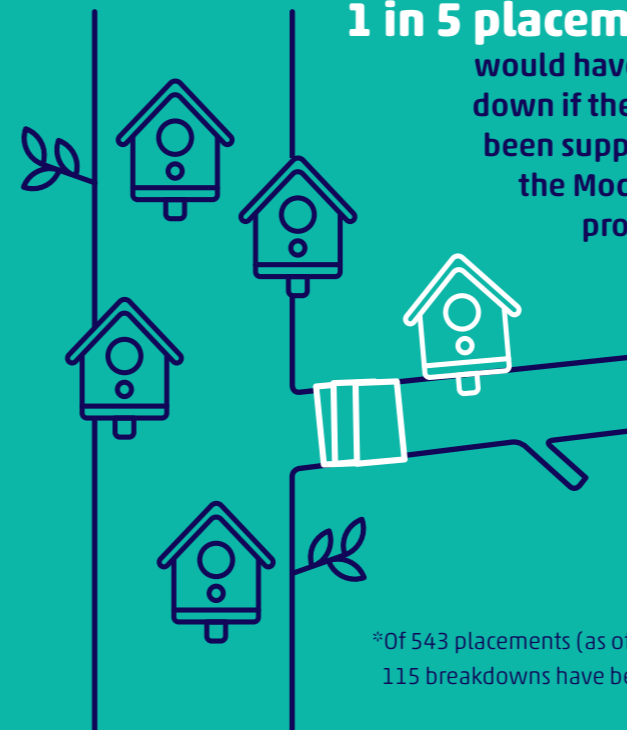

17% carers* would have resigned if they hadn't been supported by the Mockingbird programme

*Of the 521 satellite carers in the programme (as of April 2019), 87 would have resigned without the support provided by the Mockingbird programme.

PLACEMENT STABILITY

1 in 5 placements* would have broken down if they hadn't been supported by the Mockingbird programme

*Of 543 placements (as of April 2019), 115 breakdowns have been avoided.

5 placements in residential care have been avoided

Total cost avoidance
£2.4M

£1.4M avoided with the retention of 87 carers

£100K avoided with the prevention of 115 placement breakdowns

£800K avoided with the prevention of 5 entries in residential care
