

25 ways to fundraise

Welcome and thank you

There are 64,000 children living with foster carers each day in the UK. And every 20 minutes another child comes into care needing a foster family.

These children have often experienced neglect, abuse and trauma. We want each of them to have a positive experience of family life. With your help we will support them to overcome the challenges of their early lives, to achieve their very best and to make a positive contribution to society.

As the UK's leading fostering charity, The Fostering Network is passionate about the difference foster care makes to children and young people. Transforming fostered children's lives is at the heart of everything we do.

We work to ensure all fostered children can overcome the challenges of their early lives and have a positive experience of family life.

We help foster carers to improve children's lives. We champion the vital role foster carers and their families play in helping fostered children, and work to ensure they are properly recognised, valued and supported.

To make all this happen, we are focusing our work with children and young people on four key themes: stability and relationships; education; health and wellbeing; and confidence and life skills.

Your fundraising will help us to develop and deliver programmes, projects and activities to improve outcomes for fostered children and young people in these areas.

Thank you for choosing to support the work of The Fostering Network.

Kevin Williams
Chief Executive
